

Football complex in school

A plush green football complex, which is in compliance with FIFA rules for six-a-side matches, has been inaugurated at the Newtown School Kolkata. The football ground has a total area of 14,000sqft with a playable area of 9000sqft. The ground has an astroturf with high density of grass per square metre, pile height of 30mm and high Dtex which makes this field an international-standard turf for football.
